Employment & voluntary work

Vocational

2014–2015 **Graduate Trading Platform Engineer**, *Fidessa*, Woking.

Charity Board of Trustees

2014– **Founding trustee & Treasurer**, *UniBrass Foundation* (reg. no. 1,159,359).

Manage an annual budget of $\sim \pounds 30\text{ k}$ in support of the annual University Brass Band Championships of Great Britain and Northern Ireland. Ensure charity is compliant with all legal obligations.

Education

2015– **PhD**, *Institute for Computational Cosmology*, Durham, UK.

Supervisors: Prof. Adrian Jenkins and Prof. Carlos Frenk

2010–2014 **BSc MPhys**, *University of Warwick*, Coventry, UK, *1st Class (Hons)*.

Masters project: Determining the fundamental properties of Higgs candidates at the LHC

Awards and scholarships

Apr 2019– **ICC Research Scholarship**, Institute for Computational Cosmology, Durham, UK.

2015–2019 **STFC Postgraduate Studentship**, Institute for Computational Cosmology, Durham, UK.

Conference contributions

Contributed talks

Jan 2019 **DEX XV**, Edinburgh, UK.

Constraints on the mass of the thermal relic warm dark matter particle

Dec 2018 **VIRGO Consortium meeting**, Leiden University, Netherlands.

Constraints on the mass of the thermal relic warm dark matter particle

Aug 2018 **XXX IAU General Assembly**, Vienna, Austria.

Constraining the mass of the WDM particle using estimates of the total satellite population of the Milky Way

Jan 2018 **DEX XIV**, Durham, UK.

The total satellite population of the Milky Way

Dec 2017 **VIRGO Consortium meeting**, MPA Garching, Munich, Germany.

The total satellite population of the Milky Way

July 2017 **National Astronomy Meeting**, Hull, UK.

The total satellite population of the Milky Way

Dec 2016 **VIRGO Consortium meeting**, Durham, UK.

MW satellite galaxies: how many could there be?

Posters

Aug 2018 **XXX IAU General Assembly**, Vienna, Austria.

Constraining the mass of the WDM particle using estimates of the total satellite population of the Milky Way

Teaching/supervising experience

2018– Co-supervising a 4th year student's master's thesis

2017–2018 Co-supervisor of a 4th year student's master's thesis titled 'Studying the dark matter distribution of the Local Group using dwarf galaxies.'

Committees

2018– **Small Galaxies, Cosmic Questions LOC**, *Member*, Durham, UK.

Member of the Local Organising Committee for the "Small Galaxies, Cosmic Questions" conference to be held in August 2019

2016–2017 **Postgraduate Journal Club**, *Co-convenor*, Durham, UK.

Coordinated a weekly meeting of postgraduate students to discuss recent papers and share knowledge.

Professional memberships

May 2017– Fellow of the Royal Astronomical Society

Outreach

Events

Oct 2018 **Celebrate Science**, Durham, UK.

Galaxy Makers

Apr 2018 **Schools Science Festival**, Durham, UK.

Galaxy Makers

Oct 2017 **Celebrate Science**, Durham, UK.

Galaxy Makers

Apr 2017 **Schools Science Festival**, Durham, UK.

Galaxy Makers

Jul 2016 **Royal Society Summer Science Exhibition**, London, UK.

Galaxy Makers

Activity development

2015–2016 **Galaxy Makers**, Durham, UK.

Developed design ideas and ran the constituent *EAGLE* volumes that were visualised in the final exhibit.

Computer skills

Python, \LaTeX , TCL, SQL, Microsoft Office suite

Publications

2018 Oliver Newton, Marius Cautun, Adrian Jenkins, et al. The total satellite population of the Milky Way. *MNRAS*, 479(3):2853–2870, September 2018.
